

Course Length: The Virginia State Drivers Education consists of two phases. The in-car phase consists of a minimum of seven periods of actual driving and seven periods of observation. Two periods of instructions are given during each session. One period of 50 minutes behind the wheel and one period of 50 minutes observation while the other student is behind the wheel.

All students under 19 years of age, must complete a state approved Driver's education prior to receiving a driver's license. The classroom phase consists of 36 periods of classroom instruction. Students must present proof of classroom completion prior to starting the in-car phase.

If proof is not presented prior to the start of the in-car phase, students are advised to first complete the 36 periods of classroom instructions before enrolling in our in-car phase.

Please note that starting September 01, 2010 parents or guardians must participate in an additional 90-minute driver education component as a part of the in-classroom portion of the driver education curriculum as defined by Virginia Code 22.1-205(A).

If the student has missed time during scheduled session days, the student may make up the missed time during other make-up days before joining the regular scheduled class.

Classroom portion is not required for students who obtained a learner's permit at age 19 years and over and who have held the learner's permit for at least 60 days
